

Backend Developer with a degree in Information Systems Engineering. Experienced in building web applications and backend systems. Proficient in Python, Django, REST APIs, PostgreSQL, and SQL Server. Skilled in project management, team collaboration, and agile methodologies. Seeking a Junior Developer role to contribute scalable backend solutions and quantifiable results.

Education

Universidad Técnica de Cotopaxi

Bachelor’s Degree in Information Systems Engineering

Thesis: Development of a Laboratory Reservation Management System (ASP.NET, SQL SERVER)

Relevant Coursework: Software Development, Web Applications, Database Systems, Software Engineering, Systems

Latacunga, Ecuador

November 2025

Experience

Universidad Técnica de Cotopaxi - IT Department

Full Stack Developer

March 2024–August 2025

Latacunga, Ecuador

- Led backend development of a laboratory management system for 50+ academic labs.
- Reduced scheduling conflicts by 40% through automated booking and resource allocation modules.
- Built user authentication and schedule tracking modules. Served 200+ active users.
- Designed a relational database with 10+ tables using PostgreSQL for institutional data management.
- Automated manual administrative processes. Improved operational efficiency by 30%.
- Applied agile methodologies and project management practices. Delivered all milestones on schedule.

Universidad Técnica de Cotopaxi - Observatory Platform

Junior Web Developer

October 2023–February 2024

Latacunga, Ecuador

- Maintained and enhanced an institutional web platform built with PHP and MySQL.
- Optimized 10+ web pages. Reduced average load times by 25% through code refactoring.
- Implemented responsive design across all pages. Increased mobile traffic by 35%.
- Improved statistical data presentation used by 5+ academic departments over 12 months

San Buenaventura Urban Parish

Junior Web Developer

April 2024–August 2024

Latacunga, Ecuador

- Designed and built the institutional website from scratch using HTML, CSS, and JavaScript.
- Published 15+ informational pages. Improved citizen access to public services.
- Optimized user experience and navigation flow. Reduced average page navigation time by 20%.
- Applied project management best practices. Delivered the full project on schedule.

Courses / Certifications

DESARROLLO DE APLICACIONES MULTIPLATAFORMA CON PYTHON

Provided by Ministerio del Trabajo – Ecuador | 2024

DESARROLLO DE APLICACIONES FULLSTACK

Provided by DAMISOFT – Ecuador | 2025

CLOUD COMPUTING DESDE CERO

Provided by UNIVERSIDAD ESTATAL DE MILAGRO – Ecuador | 2025

Skills & Interests

Technical: Python, Django, REST APIs, PostgreSQL, SQL Server, Git, GitHub, HTML, CSS, JavaScript, ASP.NET Web Forms

Soft Skills: Problem-solving, Analytical thinking, Team collaboration, Communication, Adaptability, Attention to detail

Language: Spanish — Native, English — Intermediate (Reading and technical communication)

Interests: Personal software projects, backend development, learning new technologies, and problem-solving challenge
